

## HTC One / Android Email Setup

These are instructions for setting up the HTC One Android phone. The setup of other Android Phones will be similar.

Click the Settings Button

Chose Accounts & Sync and Press the + button at the top right of the screen

Enter your email address and password, then click MANUAL SETUP

Choose POP email account, and enter your email address, username, and password and "icmailbox.com" for your POP server and click next

The screenshot shows the 'Incoming settings' screen on an iPhone. At the top, the status bar displays the time as 12:04 PM, along with icons for signal strength, 4G connectivity, Wi-Fi, and battery level. The settings are organized into several sections:

- PROTOCOL:** A dropdown menu is set to 'POP'.
- EMAIL ADDRESS:** A text field contains 'sun@integralcorp.com'.
- USERNAME:** A text field contains 'sun@integralcorp.com'.
- PASSWORD:** A text field is masked with ten dots.
- POP SERVER:** A text field contains 'icmailbox.com'.
- SECURITY TYPE:** A dropdown menu is set to 'None'.

At the bottom of the screen, there are two buttons: 'BACK' on the left and 'NEXT' on the right.

Enter your email address, username, and password and "icmailbox.com" for your SMTP server. Change the server port from 25 to 587 and click NEXT

**Outgoing server settings**

**Login required**

**USERNAME**  
sun@integralcorp.com

**PASSWORD**  
.....

**SMTP SERVER**  
icmailbox.com

**SECURITY TYPE**  
None

**SERVER PORT**  
587

**BACK** **NEXT**

An error message may appear as follows when it tries to verify, just hit CONTINUE

Name your Account on your phone, and press Finish Setup
